

The Botetourt County/Roanoke County/Franklin County area of Virginia has evolved over the years. When we show one generation in Botetourt County and the next generation in Roanoke County and another in Franklin County, they may not have moved far or at all.

Everything west of Bedford was Botetourt County in 1769.

By the mid 1800's Montgomery and Franklin had been created from parts of Botetourt.

And today, Botetourt (blue), Roanoke (yellow) and part of Franklin County (pink) exist in what was once Botetourt.
